You Have [[DaysUntilFeature]] Days to Unravel Your Dreams and Invite Wealth into Your Life before the [[theMoon]]

Dear [[Forecast10]],

Have you ever wondered what your life would be like if you only ever did exactly what was best for you? I knew a millionaire who told me that every morning he went to his office for only one hour. Within that hour he made some phone calls, wrote a few emails, and shot off some letters-only one hour a day to maintain a large and successful company. He was focused, deliberate, instinctive -- and as I mentioned, fabulously wealthy!

[[Forecast10]], you too, like my millionaire friend, can spend your days doing only what you want only when it's good for you. And when I consulted your charts, I was delighted to discover that your personal path to this kind of sublime freedom will be revealed in your dreams during the powerfully energized period before the [[theMoon]]. *Answers will surface in your conscious life like dazzling keys to your future wealth and personal accomplishments.*

All this is possible with the legendary and beautiful **Dream Catcher** - a powerful spiritual tool that works like a net to capture dreams so you can use them to soar to heights of success you never believed possible!

Sterling Silver Encased in 24K Gold

The Legacy and Legend Behind the Dream Catcher...

The history of the Dream Catcher can be traced to the Native American Ojibway Chippewa tribe. These mystical instruments were woven for newborn children by their grandparents who then hung them above the cradleboard to give the infants peaceful, harmonious dreams. The tribal elders knew that the night air is filled with magic!

The Ojibway believe that beautiful dreams will find their way to the deserving dreamer. And the slightest movement of the Dream Catcher's feathers, indicate the passage of yet another good dream. Bad dreams are likewise trapped in this spiritual net and then evaporated by the sun like the morning dew.

*This stunning and powerful piece has been delicately
handcrafted in only the finest materials*

Dream Catchers were originally made of red willow gathered in the early spring when its color was brightest. Feathers were added so that the parents could see the good dreams slipping down the softness of the feathers. The web was made of nettle-stalk fiber and dyed red with the inner bark of the wild plum tree. But the Dream Catcher that I bring to you has been handcrafted from stronger, and more precious materials.

Gold Vermeil Over Pure Sterling Silver makes your Dream Catcher a beautiful and valuable talisman.

A Silver bead rests in the delicate dream-catching web, and a gold, red and clear Cubic Zirconium crystal have been arranged to imbue a final magical touch.

**It's Time To Let the Dream Catcher Turn Your Dreams into Gold,
[[Forecast10]]**

Being born under [[AstSign]], on a [[Birthday:WW]], has made you by nature an intuitive individual, so why waste another moment? It's time to heed your dreams and achieve your potential so you can live in luxury and serenity at last.

There's a path for each of us. And when we're on the right road it feels so fitting that we inherit a surefootedness and confidence that can only come from trusting that *you know just where you're going*. Trust your instincts [[Forecast10]], and your path will be illuminated with such brightness that *it will be hard for you to take a wrong step*.

"Follow your bliss and doors will open where there were no doors before."

- Mythologist, Joseph Campbell

The inner commitment to be true to ourselves and follow our dreams is what enables us to find our way in the universe. Indeed the universe itself is like one vast Dream Catcher as spectacularly positive energy reverberates through space.

Dreams Are the Language of Our Unconscious

Jung, the great psychiatrist who spent his life studying dreams, realized that *dreams were the way our unconscious communicated with the conscious part of ourselves in order to bring something important to our notice*; our deepest desires, fears, and inherent qualities.

You, my friend, don't need to spend your life analyzing your unconscious, you want to live, and in a way that enriches you and brings you abundance and prosperity. But unless you realize what your dreams are trying to tell you, you'll overlook the million dazzling keys that can open the door to a life of happiness and wealth.

Let Your Dreams Be Signposts that Show You the Way

Whether or not you remember your dreams, or even pay much attention to

them, they contain important information. They cast the light of truth on what has happened or is presently occurring in our lives, and thus provide insights into the future. In fact, along these lines, *in ancient cultures dreams were said to be messages from the gods.*

Everyone dreams, but some people are lucky enough to have their dreams nurtured and encouraged. For others, the dream is so all-consuming and powerful that it becomes a reality simply because it must, (I'm thinking of Beethoven who overcame incredible odds to become one of the greatest composers of our time).

I know that as a child you had many dreams too, [[Forecast10]]. You had a good sense of *who* you were, and you expected something different from life. Then people tried to steer you away from your dreams; parents, teachers, people who thought they had your best interests at heart. Your dreams became buried inside you and their glittering brilliance was dulled.

The Dream Catcher is precisely the instrument that makes important dreams accessible...

The Dream Catcher will allow you to take control of your dream life, so that only the good dreams surface in your conscious life. I know for a fact that once we concentrate on our dreams, or at least think about them a little more, we remember more. Clues emerge, solutions to predicaments and problems that we thought we had dissolve in the clear light of day.

I know how busy you are, [[Forecast10]], and it's very hard to find the time to recapture the disjointed images that occurred throughout the night. This is the job of the Dream Catcher, and once you put it to work it will change your life.

Reclaim the Dreams that Belong To You Before the [[theMoon]]

It's the moon that governs night and sleep, which is why the moon plays such a significant role in activating the Dream Catcher. A [[theMoon]] is symbolic of great success, and personal transformations. By wearing your Dream Catcher before and during the [[theMoon]] you are aligning yourself not only with the world of the unconscious, but also with the most powerful of Lunar forces.

Here's How to Activate Your Dream Catcher, [[Forecast10]]

When your Dream Catcher arrives, I want you to take it into the privacy of your bedroom. Hold it in the palm of your hand, and try to clear your mind of all concerns. Next, imagine a vast expanse of deep blue sky. Fill this blue space with all the things you want in your life... wealth, peace of mind, and love.

The Dream Catcher initiation is really introducing a more intimate dialogue between your conscious and unconscious. Even though your dream life already knows what you want, now you have to relay this to the *waking you*. Remember there's no one to censor you. You're an adult and your life

belongs to you. We only have one life and it can be as wondrous and special as you want it to be.

Once you've initiated your Dream Catcher, you'll begin to notice positive changes -- first in small things and later in major things. Success and wealth will begin to spill into your life as your dreams begin to inform your actions, enhancing your every move and thought with a confidence and authenticity.

And to make your journey to abundance even easier, I want to give you 3 FREE Gifts to compliment the Dream Catcher Talisman...

Your friend and advisor,

Betha

P.S. My dear friends, don't forget that everything important in life begins first with a dream. Also you don't have to wear the Dream Catcher while you sleep, just keep it somewhere nearby.
